# TESTIMONIALS

---

SP2T has brought a big change in my life. Before this i was very shy, underconfident and couldn't talk to people. When i came there, i spent wonderful days there. Bringing a change in me felt difficult at first but then it was a really fun process. After the session i started feeling confident about myself and became very interactive with people.

I even got to know myself better. I enjoy so much here that i keep visiting here again and again. And everytime i visit i get to learn something new

**Aniket Mittal**  
**Aspiring MBA student**

Everyone has a turning point in their lives - mine was Yuvamation! Right when I had believed in the fact that the world is cruel and you're all alone in this world - Yuvamation gave me my support system without whom I'm practically nothing! It gave me the confidence and power to win the world and here I am a young Studio executive at 24, growing everyday!
